# Why chooses Stainless steel outdoor kitchen?

## 1. Health And Environmental Protection

The main and auxiliary materials of the cabinet are all made of 304 stainless steel, absolutely not using a wooden board. There is no harmful substances, such as formaldehyde, which is a real healthy and environmentally friendly cabinet.

## 2. Strong And Durable

Advanced metal numerical control welding technology, more precise positioning, more precise welding. Welding seam is uniform and beautiful, with stable quality. The cabinets are durable for 50 years.

## 3. Scratch-resistant

After the craftsmanship production of the surface of the cabinet, it has a very high aesthetic enjoyment in terms of vision and touch. Functionally, using a firm and soft surface is more resistant to scratches and abrasion.

# Why chooses Stainless steel outdoor kitchen?

## 4.No fear of bugs

The dead end position can be kept well ventilated and dry at all times to prevent the breeding of small bugs, such as ants, and avoid spreading diseases.

## 5.Fireproof and high temperature resistance

The fireproof building materials are made through an autocratic process in high temperature and high pressure environment, with decorative surface. There are variety of colors, textures and special physical properties.

## 6.Waterproof And Not Moldy

The countertops and doors of the cabinet are made of 304 stainless steel, which is waterproof and moisture-proof. It will not be deformed or moldy after being immersed in water for a long time.

# Why Do Outdoor stainless Steel Kitchen Cabinets this project?

The problems of kitchen cabinets made of wooden material will be encountered more obviously in the place where are hot and humid all year around: termites, warping, moldy, difficult to clean, not very durable...

All problems with wooden kitchen cabinets can be solved when it encountered with stainless steel kitchen cabinets.

Customers have also gradually realized this and accepted stainless steel kitchen cabinets. Especially with the advancement of technology, stainless steel door panels can be made into a variety of colors and shapes, it is no longer cold any more, greatly meet people's aesthetic needs. Which make stainless steel kitchen cabinet more popular.

## Why Do With OAT?

We are 8 advantages to satisfy clients!

1. Stainless steel door panels are in variety of colors and styles.

2. Slide & hinge are from Blum.

3. Anti - peeling color technology of panel.

4. Convenient assembly cabinet technology.

5. Seamless integral molding process in stainless steel countertops.

6. Eco- friendly Filler: Aluminum honeycomb.

7. Premium Hardware: stainless steel screw & copper nut.

8. Pre-installation before out of factory. Besides, OAT is one of subsidiary companies of Mellow

Group, Mellow Group have been thoroughly developed in the stainless steel market for more than 18

years with advanced technology. Relying on the raw material price advantage provided by the group, we

can ensure that the price of our products has incomparable advantages of others.
